

TECHNICAL DATA SHEET - SURFACE CLEANER PRE CLEANER – LIQUIDE N°2

Universal cleaning agent for precleaning of substrates such as vehicle bodies, metal, stainless steel, paint, glass, Plexiglas... Removes traces of grease, insect blood... Intended for precleaning during the preparation process of a full vehicle wrap.

COMPOSITION:

- Water
- < 5 % non-ionic surfactants

LIQUID FEATURES:

- Yellow liquid
- pH: 13

USER'S INSTRUCTIONS:

Caution: corrosive product: may cause burns. (The safety data sheet is available on request.)

- Handle in a properly ventilated area.
- Use gloves, safety goggles and suitable safety clothing.
- Prior to treatment, run a compatibility test on a small, non-conspicuous area of the substrate to be treated.
- Spray it onto the dirty surface.
- Wait for a few minutes, then wipe it with a moistened microfibre cloth.

Caution: Use only cloths that have not been used with any other products.

STORAGE:

- Keep the product tightly closed in its original container, in a cool and properly ventilated area. Keep it away from flames or sparks and do not smoke.
- Shelf life: 1 year if it is stored in its unopened original container.

NOTES:

Because of the great variety of substrates and the growing number of new applications, the installer must check the suitability of the media for each application. All information released originates from laboratory measurements on a regular basis. However, it does not constitute a binding warranty. The seller is not held accountable for indirectly related damages beyond the replacement value of the purchased product. All specifications are subject to potential changes without prior notice. Updates of our specifications are automatically available on our website at www.hexis-graphics.com.
