ASSEMBLY

ROLLSHOW

1

The ROLLSHOW consists of a steel casing, a non-telescopic pole and a hanger.

2

Open the hanger.

3

Clip the top of the graphic in the hanger.

4

Partly expose the double-sided tape and start applying the bottom end of the graphic.

5

Continue applying the graphic until the full width is taped.

6

Once the graphic is applied to the tape, firmly press down over the full width to ensure proper adhesion.

7

Remove the pin to pull the graphic into the casing. Be careful to hold the graphic and let it roll up smoothly.

8

Roll the entire graphic into the casing.

9

Fit the pole into the casing.

10

Pull the graphic out of the casing while holding the pole.

11

Completely unroll the graphic and fix it to the pole.

12
