

TECHNICAL DATA SHEET - CLEANING AND PREPARATION ADHESIVE REMOVER

Powerful cleaning agent for eliminating adhesive residues and other deposits (tar, bitumen, oil, grease, remains of graffiti...). Intended for the cleaning of car bodies during the preparation process of a full vehicle wrap.

COMPOSITION:

- Isopropyl alcohol.
- Orange terpene fragrance.

LIQUID FEATURES:

- Red liquid.

USER'S INSTRUCTIONS:

- Handle in properly ventilated areas.
- Wear gloves, goggles and suitable safety clothing.

The safety data sheet is available upon request.

- Prior to treatment, run a compatibility test on a small, inconspicuous area of the substrate to be treated. Certain plastic materials might be damaged by the ADHESIVE REMOVER.
- Spray it onto the dirty surface and spread out using a dry and clean microfibre cloth.
- Let it work for a few minutes, then wipe it dry with a clean microfibre cloth.

Caution: *This cloth should exclusively be used for cleaning purposes with the ADHESIVE REMOVER.*

- When the substrate is clean and dry, carry out a final cleaning with the HEXIS FINAL CLEANER.

STORAGE:

- Keep the original container tightly closed, in a properly ventilated area. Keep it away from flames or sparks. Do not smoke.
- Shelf life: 1 year when stored in its unopened original container.

NOTES:

Due to the great variety of substrates and the growing number of new applications, the installer must check the suitability of the medium for each application. All the published information is based on measurements regularly performed in the laboratory. It does not however constitute a binding guarantee. The seller cannot be held liable for indirectly related damages and assumes no liability for claims that are higher than the replacement value of the purchased product. All specifications are subject to potential changes without prior notice. Our specifications are automatically updated on our website www.hexis-graphics.com.
