

DATA SHEET PLOTTER MEDIA

DRAWING PAPER 120g/m²

White paper, 120 g/m², suitable for all type of drawings.

CHARACTERISTICS OF THE PAPER:

	<u>Average values</u>	<u>Standard</u>
• Thickness of the paper (µm):	130	
• Specific weight (g/m ²):	120	HEXGSM001
• Opacity (%):	>78	HEXOPA001

USAGE GUIDE:

- Usage temperature range: +10°C to + 30°C (+50°F to 86°F) with 30 to 70% relative humidity.

STORAGE:

- Shelf life (before application):
2 years if stored unopened in its original packing at a temperature between 15 and 25°C (59°F and 77°F) and between 30% and 70% relative humidity.

Note:

Because of the great variety of substrates and possible application methods the installer must examine the suitability of the media for each application. The methods of measuring for the standards quoted above are the basis for the development of our own measuring methods which are available on request (partial application). You are invited to enquire for the latest instructions in force.

All published data are based on measurements carried out regularly under laboratory conditions. They do, however, not constitute a warranty, representation or promise, express or implied as to the condition, quality, merchantability, fitness for a product, or that such product will satisfy any requirement for a specific property or capacity or special methods, all such warranties being hereby expressly disclaimed. The seller assumes no liability for claims beyond the replacement value of any product proven to be defective in material or workmanship and is in no way liable for direct, indirect, special, incidental damages or consequential loss including without limitation lost profits or loss of use, whether based on contract, tort or any other legal theory. Product specifications may change without prior notice. Our website is automatically updated: www.hexis-graphics.com.
